## DINTEK ezi-TOOL90 - Horizontal Tool

The DINTEK ezi-TOOL90™ system is an all-in-one punch down and wire trim process, designed to ensure even connections, better performance and faster fit off times.

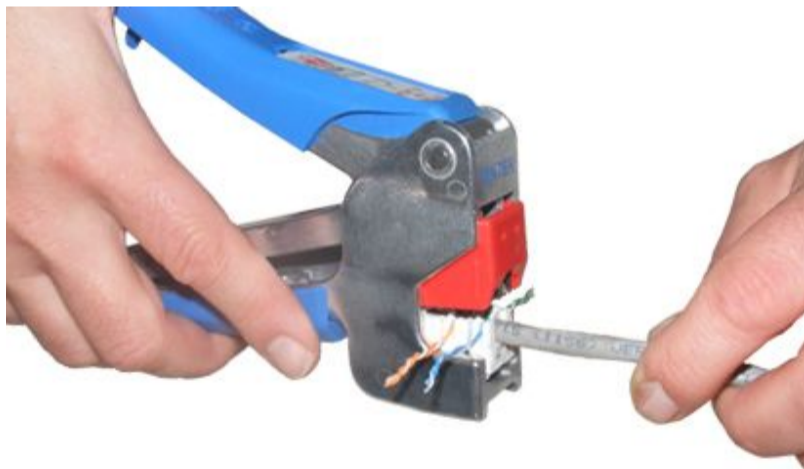

The ezi-TOOL90™ is for use with 180degree Cat.5e, Cat.6 and Cat.6A modular keystone jacks.

### Features

- Vertical and horizontal jack versions available
- All-in-one punch down of 8 wires
- Even wire trim process
- Maintains gas tight IDC connections
- Minimizes return loss & cross talk
- Multi use keystones, can be used in Ezi-Tool and also standard punch down tool

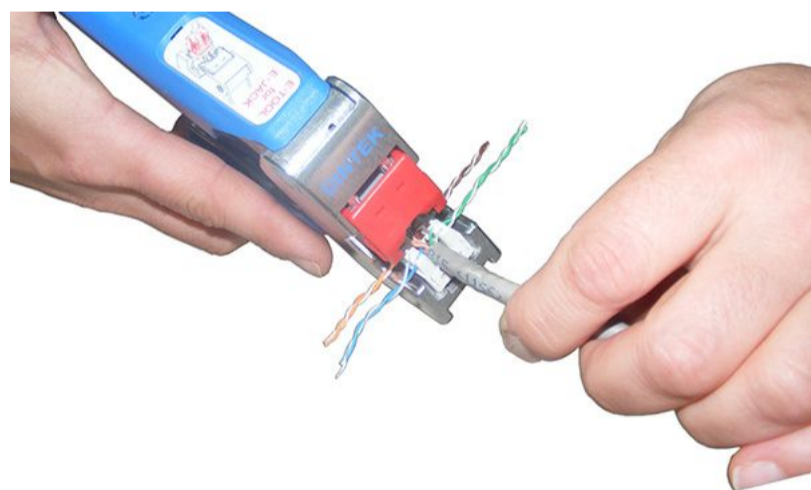

### Applications

- Premise wiring
- Cable assemblies
- For use in DINTEK Cat.6A, Cat.6 or Cat.5e installations
- Standardize connections on IDC

### Benefits

- Maintains gas tight IDC connections
- Insertion loss reduction
- Removes risk of insulation and/or keystone jack damage
- Multi use ezi-JACKS can be used in the ezi-TOOL and also standard punch down tool
- Wires pushed down over IDC instead of impact 110 style
- Removal of impacting to terminate improves return loss and cross-talk at termination points
- Less termination failures and better overall bandwidth for customer
