

DINTEK Fiber Installers Termination Kit / with Power Meter and VFL

With 30 years of experience providing quality tools and networking materials for the telecommunications industry, DINTEK offers a new Fiber Termination Kit, designed to increase technician efficiency and speed up the fiber installation process.

The DINTEK 6100-00032 Termination Tool Kit is designed and tested by a team of expert engineers who help ensure our products meet your high expectations.

Whether you're repairing and splicing cables, laying new fiber, or performing any other fiber optic installation task in the field, the DINTEK Fiber Optic Termination Kit will help you to prepare the fiber for the best termination possible.

Applications

- Stripping and preparing multimode and singlemode fibers
- Cleaving prepared fibers for fusion splicing or mechanical connection
- Testing / checking fibers for optical power
